Other: Depression is one of the major issues facing Utahns. Recent news articles point out that Utah, as a whole, has a higher rate of antidepressant use than any other state in the nation. The Depression Recovery Program 2010 Conference, being offered at the Salt Palace Conference Center from September 24 – 25, 2010, is an excellent educational tool to obtain information on possible causes of depression and, more importantly, what to do about it.
