

TRAFFIC SAFETY

Each school principal shall design a safe flow of traffic for delivery and pick up of students and pedestrians. This should be communicated to parents/guardians annually.

Before the opening of school, the principal should arrange with the local law enforcement agency for crossing guards for the protection of students on their way to and from school.

Local law enforcement officials, bus drivers, and parents should be given a copy of the school calendar and informed in advance about any changes in schedule.

The school provides adult supervision at the opening and closing of the school day.
