

**STUDENTS UNDER COURT ORDER OR RELEASED ON BAIL**

Any student who has been arrested and charged with any felony or any misdemeanor involving assault or drug use and/or sale shall not be permitted to attend class pending the disposition of the charge. The student shall receive materials that will allow the student to maintain class progress from home. Upon disposition of the charge, the school shall make a final determination regarding the student's continued enrollment.

Any student who is the subject of a temporary restraining order which prevents the student from having contact with another student, teacher or other employee at the same school and which cannot be reasonably complied with if the student continues attending school, shall not be permitted to attend class pending the adjudication of the restraining order. Instead, over the duration of the temporary restraining order, the student shall receive materials that will allow the student to maintain class progress from home. Should a permanent injunction be issued, the school may begin expulsion procedures for the student in accordance with Policy 3500.
