

Catholic Community Services' Refugee Foster Care program places unaccompanied refugee minors in loving, stable foster homes. Our capacity for placing youth currently exceeds available families.

With the anticipated growth of refugee admissions and an increased number of unaccompanied Central American youth seeking refuge in the United States, we desperately need more foster families willing to open their hearts and homes to give these youth a fresh start.

If you are interested in offering a refugee youth with a place to call home and a family to call their own, please contact Mary Totsch at [mtotsch@ccsutah.org](mailto:mtotsch@ccsutah.org).
