

## **FUND DEVELOPMENT**

The future financial stability and growth of the Catholic school system depends on sound financial practices, advancement programs, fund-raising, reasonable tuition rates, and wise use of resources.

### **Advancement/Development Office**

An office shall be established and maintained in each of the local schools and shall:

1. Pursue funds from alternative sources: alumni organizations, grant proposals, annual gifts, matching corporate funds
2. Promote public relations and marketing programs
3. Establish and solicit funds for the local endowment within the Catholic Foundation of Utah
4. Initiate scholarship funding
5. Research new methods of fund raising
6. Promote professional development in grant writing, money management, and fundraising methods for advancement/development staff, finance boards, and committees

### **Fund-Raising Activities**

Additional new sources of fund-raising should be researched. Special attention should be given to untapped community resources so that excessive demands are not made on parents.
