

**STUDENT INSURANCE**

Each year a number of students receive injuries at school, while in transit or while participating in school activities. Many of these students have inadequate insurance or none at all. Therefore, all students enrolled in the Catholic schools of the diocese are to be covered by accident insurance as determined by the Catholic Schools Office. This insurance is a secondary insurance for those students covered by a separate policy.

Each school will pay to the Catholic Schools Office the annual insurance fee based on the number of students and day care children enrolled for the school year.

Schools are free to assess students for the mandatory coverage or to pay the premium from general revenues.
