

ACCIDENT REPORTS

The safety of students in Catholic schools or other established programs is a matter of vital concern. Every effort is to be made to prevent accidents and to insure safety.

If a student, participant, or employee of a Catholic school program is involved in an accident requiring emergency treatment at a hospital or doctor's office, it should be reported promptly to the Catholic Schools Office using the diocesan Emergency Medical report form. Copies are to be distributed as indicated on the form. This is the responsibility of the principal.

In the case of a serious accident, the Catholic Schools Office is to be kept informed regarding the condition and progress of the person injured.
